No stone has been left unturned in the design of this Houston residence as all living spaces have been given equal artistic emphasis. Classically proportioned rooms, all with precise detailing, set the stage for the modern art collection. Refined contemporary furnishings, devoid of surface ornamentation, were selected or custom designed to offset the classic architectural backgrounds and compliment the growing art collection.

This 20,000 square foot residence began with extensive involvement in all interior and exterior architectural elements, transforming the design from a likely Mediterranean estate to a visual blend of quiet excellence. Such transformation included the customization of clay roof tiles, cast stone colors, textures and profiles, interior plaster color, texture and pattern. The designers were also involved with all material, finish, lighting, custom furnishing, drapery design and flooring selections.
