Slovack-Bass

Winner Commercial - Retail

Directly overlooking the Williams Waterwall, this bank lobby used architectural elements to incite interest and lead the eye to the stunning exterior view. Subtle and refreshing mid-tones from the client's brand are central to their first presence in Texas. Stone, wood, mirror, fabric, and leather form a sophisticated finish palette that enhances the client's progressive vision. Seated and standing tellers, informal seating groups, a conference room, and café area ensure that every client is accommodated.
